

EARLY INTERVENTION SERVICES:

Arizona Early Intervention Program Criteria:

A child from birth to 36 months of age will be considered to exhibit developmental delay when that child has not reached 50 percent of the developmental milestones expected at his/her chronological age, in one or more of the following domains:

- Physical: fine and/or gross motor/sensory (includes vision and hearing)
- Cognitive
- Language/communication
- Social or emotional
- Self help/adaptive

If your child is eligible for AZEIP services and there is a belief they may also be eligible for services under Arizona Schools for Deaf and Blind (ASDB) or DES: Division of Developmental Disabilities, your Service Coordinator will assist you with applying to those programs.

High Country Early Intervention Inc., dba Karen A. Fay provides therapy services for all ages and early intervention services for children (birth to age 3).

Based in Prescott, Arizona, High Country Early Intervention, Inc. dba Karen A. Fay has been serving families throughout Yavapai County since 1996.

OUR SERVICES INCLUDE:

- Speech Therapy
- Occupational Therapy
- Physical Therapy
- Early Intervention Services

OVERVIEW OF SERVICES:

High Country Early Intervention Inc., dba Karen A. Fay provides both therapy services (infant to adult) and early intervention services (birth to age 3). We provide services in Yavapai and Northern Gila County.

THERAPY SERVICES

We provide speech, occupational, and physical therapy to any individual regardless of age. Our therapists are able to perform evaluations and provide ongoing therapy services to those who qualify.

Referrals for therapy services can come from parents, guardians, and/or physicians.

We accept private pay and can work with most insurance companies as well as The Division of Developmental Disabilities.

Speech therapy, occupational therapy, and physical therapy can be provided in various locations depending on availability.

We provide individual therapy along with social group therapy.

EARLY INTERVENTION SERVICES

During the development of the child/family's Individualized Family Services Plan (IFSP), the team has discussions with the family to assist them in identifying the outcomes they would like to include in the IFSP that relate to their priorities, concerns and needs. These outcomes reflect the discussions about the child's participation in family/community activities that are a part of the family's everyday life.

Once the outcomes have been developed, services and supports provided by AzeIP necessary to achieve the outcomes are identified by the team, as well as, other services/supports already in place or needed by other than AzeIP providers. A Team Lead will be identified to provide on-going services, with the support of the rest of the team members at weekly team meetings and joint home visits.

The Early Intervention Core Team consists of:

- Service Coordinator (SC)
- Developmental Special Instructor (DSI)
- Physical Therapist (PT)
- Occupational Therapist (OT)
- Speech Therapist (ST)
